

# Online Training for the Dental Team

**Orthodontics ♦ Orthopedics ♦ TMD**

**System Implementation in the Comfort of Your Practice!**

**June Williamson, RDH**

**with World Renowned Expert  
June Williamson**

**Did you know that you can now train your entire team in the comfort of your own office without the expense of travel and lost production time? **ONLINE WEBINARS** are making it possible to give your staff a great education with a live instructor on a wide variety of topics.**

**What a wonderful opportunity to unite your team in learning over a lunch or an extended break. Our programs run between 1—2 hours on a variety of orthodontic/TMD subjects and are customized to suit your specific practice needs.**

**"It is my goal to educate and assist with the smooth transition in realizing new techniques and procedures for the benefit or your patients. In turn, your staff will experience a new found enthusiasm for their job as well as your patients."**

"June Williamson and OrthOrama team have been a great asset in the development of my Orthodontic practice since 1998. All my hygienist were trained at Orthorama's weekend courses and they were all extremely impressed and well prepared for their in office tasks and knowledge.

June recently provided an In Office course to upgrade the level of education of my experienced hygienists and to teach the basics to my new hygienist. We all, including myself benefited a great deal from the in office, hands on training. June is a fantastic educator."

*~ Dr. Tania Kovaluk, Ottawa, ON*

June Williamson is a sought after clinician, international lecturer and consultant, and has been instrumental in developing successful educational programs throughout the world. Many organizations seek her expertise including the International Association for Orthodontics, American Association for Functional Orthodontics, BioResearch, Tekscan, Body Logic, USA Laser, and others.

June has taught orthodontic, orthopedic and TMJ courses to dentists, chiropractors and their staff internationally including Canada, the US, England and Australia. To compliment her experience as an educator, clinician and consultant, June has had extensive training and continued education in Functional Orthodontics, Orthopedics, TMJ, Straight Wire Mechanics, Passive Self Ligation Orthodontics, Practice Management, Perio, Nutrition and Cranial Dental Orthopedics.
